

## General Information

**Simplify your installation process use Little Buzzer by Warmzone!** The Little Buzzer is designed to monitor\* Warmzone heating mats and/or cable during the installation process and sounds an alarm if the heating elements are cut or damaged. This allows an easy repair before the floor coverings (ie. Tiles) are laid. The device is battery powered

\*simultaneously monitors the hot , neutral and ground wires.

## Instructions

1. Turn to OFF position during connection to the heating element. Connect the live, neutral and ground wires to the corresponding slots on the device and then turn the device ON.
2. Open the battery compartment and connect the battery. Switch the unit ON, the alarm should sound.
3. When the heating elements are connected to Little Buzzer and turned ON, there should be no alarm sound audible. Your floor is now ready for floor covering installation.
